Tripla project supports growth in the coming years

Tripla project

- EUR 1 billion hybrid project consisting of offices, shopping and congress center, hotels, public transport terminal and apartments
- Combines the breadth of YIT know-how in different areas of construction
- Project length ~ 10 years, constructed in phases

The location

- Pasila is an excellent location approx. 3.5 km away from the Central Railway Station of Helsinki
- Connection point for all rail traffic in the Helsinki Metropolitan Area
- Daily people flow through Pasila railway station verges on 80,000
- 500,000 persons within the reach of 30 min by public transportation

Tripla project: Pasila in the future

Tripla project proceeding as scheduled

- City plan regarding the project became legally valid in March 2015
 - Enables progress in negotiations with potential investors
- A building permit for the first phase (parking facility) will be applied for in June 2015
- After the investor/ investors have been confirmed, construction expected to start in the end of 2015
- Very good reception from potential tenants, more than 150 participants attended the launch event in November 2014
 - Target to have anchor tenants in place by the end of H1/2015

Indicative split of total investment

Estimated timing of the investment costs during the project

- The Russian ruble has recovered from the 2014 end

Principles of managing currency risks:

- Sales and project costs typically in same currency, all foreign currency items hedged
→ no transaction impact
- Currency positions affecting the income statement are hedged
 - Loans to subsidiaries in local currency, EUR 82 million in 3/2015 to Russian subsidiaries
- Equity and equity-like investments in Russia not hedged
 - Considered to be of permanent nature
 - FX changes recognized as translation difference in equity
 - Total exposure: EUR 312 million in 3/2015

Good financial flexibility

- Good ability to manage cash flow
 - Start-ups adjusted according to demand
 - Opportunity to adjust plot investments; existing plot reserve provides a good base for the coming years
- Flexibility in production costs
 - Both own personnel and subcontractors at construction sites
 - Use of rental equipment to manage the volatility in production volumes
 - Temporary layoffs possible in Finland
- Focus on payment terms in plot acquisitions
 - In Russia, payment schedule for plots tied increasingly to permitting process and start-ups
 - In Finland, a common practice to have pre-agreements that are subject to zoning

- Cash flow focus in sales
- Capital release continues

2 Competitiveness program

- Excellent execution
- Cost efficiency in design and operations

3 Best customer experience

- Development of concepts and affordable products continues
- Improved personal and online services

4 Inspired personnel

- Strengthening key competences
- Commitment to safety and quality

Market outlook, expectations for 2015

Finland

- Consumers cautious and investors active in the residential market, demand to focus on small apartments in growth centres
- Price polarisation, especially between small and large apartments
- Availability of mortgages good
- Modest demand for business premises with improving investor activity. Focus on prime locations in the Capital region
- Opportunities in contracting

Russia

- Weak visibility
- Consumers' purchasing power to decrease
- Construction costs to increase
- Uncertainty in residential price development
- Residential demand to focus on small apartments that are completed or close to completion
- Mortgage rates to remain stable due to government subsidies

CEE

- The improved economic situation to support residential and business premises demand
- Access to financing to remain good
- Residential prices to increase moderately

Guidance for 2015 unchanged (segment reporting, POC)

The Group revenue growth is estimated to be in the range of **-5 – 5%** at comparable exchange rates

The operating profit margin excluding non-recurring items is estimated to be **below the level of 2014**

The 2015 guidance is based on the following:

- Demanding market outlook
- ~40% of Q2-Q4/2015 revenue from sold projects and signed pre-agreements, the rest from new sales and capital release
- Housing Russia's share of revenue to decrease
- Share of investor projects and contracting to increase in Finland
- Capital release dilutes the operating profit margin

Concluding remarks

Growth from self-developed and co-operation projects, shifting towards a more balanced geographical footprint

Solid track record in profitability and execution through economic cycles

Strong market position and long experience from Finland and Russia

Current focus on cash flow and capital efficiency, efforts to improve capital efficiency starting to bear fruit

Construction stage financing

Financing of construction in a typical residential development project in Finland:

- YIT's subsidiary YIT Construction sells the contract receivables from Housing corporations (also owned by YIT) to financial institutions
 - Due upon completion
 - Sold in line with the progress of the project
- Customers' down payments 15% of value

→ Financing for construction

Limited refinancing risk:

- Sold receivables are included in current borrowings as they are linked to current assets. However, there is limited refinancing risk:
- Upon completion, Housing corporations pay for the construction by drawing housing corporation loans
 - 50-70% loan-to-value
 - +20 year maturities
 - The terms and conditions are agreed upon already when starting construction
- Customers pay the rest of the sales price

→ Refinancing of the sold receivables

- After completion the unsold apartments are in YIT's balance sheet as shares in housing corporations. Their share in the housing corporation loans is included in current borrowings as the loans are linked to current assets.
